AMD AKSHAYALAKSHMI

Chennai, India | +91 9342611376 | akshayalakshmi615@gmail.com | linkedin.com/in/akshayadhanasekaran/

SUMMARY

Information Technology student with strong skills in **Python, Java, SQL, HTML, CSS, JavaScript, and AI/Machine Learning**. Skilled in **problem-solving, coding, database management, full-stack development, and developing practical AI-powered applications**. Familiar with the fundamentals of **Machine Learning and Artificial Intelligence** and eager to learn emerging technologies. Seeking an opportunity to contribute technical expertise, adaptability, and problem-solving skills as a **Software Engineer**.

EDUCATION

B.Tech Information Technology ***Panimalar Engineering College, Chennai | CGPA: 8.8/ 10*** *(2022-2026)*

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL
AI/ML: Machine Learning , Scikit-learn, TensorFlow, Random Forest
Development: React.js ,HTML5, CSS3 , REST APIs ,JavaScript
Tools: Git, GitHub, VS Code, Eclipse, IntelliJ IDEA
Cloud: AWS EC2, AWS S3 – Basics
Core IT: Data Structures & Algorithms, Object-Oriented Programming, DBMS

PROJECTS

Smart E-Commerce App Using AR to Visualize Products in real time on Android

Java · Android · AR · Database · REST APIs

• Developed a smart e-commerce application that enables users to visualize products in real time using **Augmented Reality (AR)** before making a purchase.

• Built features for product browsing, user authentication, product visualization, and database management, providing an interactive and user-friendly shopping experience.

Blockchain-Based Voting System Using SHA-256

Java · Blockchain · SHA-256 · Database

• Developed a secure blockchain-based voting system to ensure **transparent, tamper-resistant, and reliable vote recording**.

• Implemented the **SHA-256 hashing algorithm** to generate unique hashes for blocks and maintain the integrity of voting data.

INTERNSHIP EXPERIENCE

Infomatronics Project Services, Chennai ***Jun 2024 – Aug 2024***

• Developed a responsive full-stack web application using HTML, CSS, Java, and MongoDB, ensuring optimal performance across devices.

• Implemented robust backend logic with smooth front-end integration, enhancing efficiency and delivering an intuitive user experience.

ACHIEVEMENTS & ACTIVITIES

• Participated in a 3-day Generative AI Workshop at Anna University.
• Earned the Java Bronze Badge and 30 Days of Code Gold Badge on Hacker Rank.
• Participated in the IEEE Xtreme 24-Hour Global Programming Competition, solving algorithmic programming challenges.

CERTIFICATIONS

• Java Programming – NPTEL
• Frontend Developer Certification – Infosys Springboard
• Generative AI – Oracle Cloud Infrastructure
• Cybersecurity – NASSCOM
• JavaFullStack– Wipro TalentNext
